Read the linked report that zi have made public

its a true statement

They may have attacked and shot my friend who stayed last night as well

There might be one in my garage still where all my id and documents, and memorabilia resides that you don't take into consideration ever, as I have the hard copy of all my shit still. Like i have repeatedly said

Thanks for nothing assholes, where is m god damned money ?

Go get fucked, I reported you all to A Current Affair again.

Your useless ad provoked them

You didn't come for me

I even put stickers on my fucking mail box ad gave you my address 1000 times and you did not even drive past you assholes

Now what are you going to do for me... It better be better than your fucked up excuses.

Microsoft has been advised to turn coding off when I am sending an email telepathic reporting, so that I can send an email out, ad then the terrorists can use my email account in-between. What dumb cunts

Blessings
